

UR22mkII Value Edition

INFO GUIDE

UR22mkII Value Edition

The UR22mkII Value Edition comes with an advanced software package that has everything you need to start recording and producing songs on your computer in great sound quality. This offer includes all the hardware and software you need to create studio-quality recordings with your Mac computer, PC or iPad and produce professional-sounding beats and music tracks. Capture your ideas, vocals, guitar or any other instrument, then produce and mix your personal sound and beats to create a truly professional-sounding production.

Everything you need to produce your songs

- Including UR22mkII audio interface
- Including Cubase Elements
- Including Groove Agent

Make it your sound!

About The UR22mkII Value Edition

The UR22mkII Value Edition comprises the UR22mkII USB audio interface, the latest version of Cubase Elements and the Groove Agent drum plug-in, as well as Cubasis LE.

Featuring two TRS/XLR combo inputs, two TRS outputs, MIDI I/O plus one separate headphone output, the UR22mkII provides sufficient connectivity for mobile recording and personal home studios. The two D-PRE mic preamps (with phantom power for condenser microphones), hardware-based latency-free monitoring and the interface's audio resolution of 24-bit/192 kHz deliver superb audio quality, while the CC mode allows connection to iOS devices. With HI-Z on input 2, the UR22mkII allows you to connect electric guitars for recording in Cubase Elements. Cubase Elements comes with a number of VST instruments, including HALion Sonic SE and the Prologue synth, plus a comprehensive suite of effects processors. It includes intelligent compositional tools like Chord Track, Chord Pads and the advanced Chord Assistant. Groove Agent includes the very best of electronic and acoustic drums. One of the most detailed acoustic drum kits ever featured in Groove Agent sits alongside a wide variety of percussion, modern electronic drums and MIDI grooves, delivering an inspirational rhythmic composition tool for producers in every genre, from jazz, funk and rock to Trap and EDM. Support for VST, AU and AAX plug-in formats. In addition, Cubasis LE allows for a truly mobile recording and production experience on the iPad.

At the core

From October 1, 2021, Steinberg will introduce the UR22mkII Value Edition as a special promotion hardware/software bundle in a limited quantity (while stock lasts). UR22mkII Value Edition comprises the UR22mkII USB audio interface, the Cubase Elements personal music production system, the Groove Agent Ultimate Drum Studio and the Cubasis LE iOS app at a price of €175 SRP incl. German VAT.

What's in the package?

- UR22mkII USB 2.0 audio interface
- Cubase Elements 11 personal music production system
- Groove Agent 5 Ultimate Drum Studio
- 30% online shop voucher for Groove Agent Expansions
- Cubasis LE mobile music production application

Cubase Elements

Personal Music Production System

Cubase Elements is your personal music studio, incorporating professional workflows as used by countless professional artists around the globe. Using the same technology platform as its siblings in the Cubase family, Cubase Elements offers tools for intuitive songwriting, instruments to develop your musical ideas and studio-grade effects.

CUBASE ELEMENTS 11

Groove Agent 5

Ultimate Drum Studio

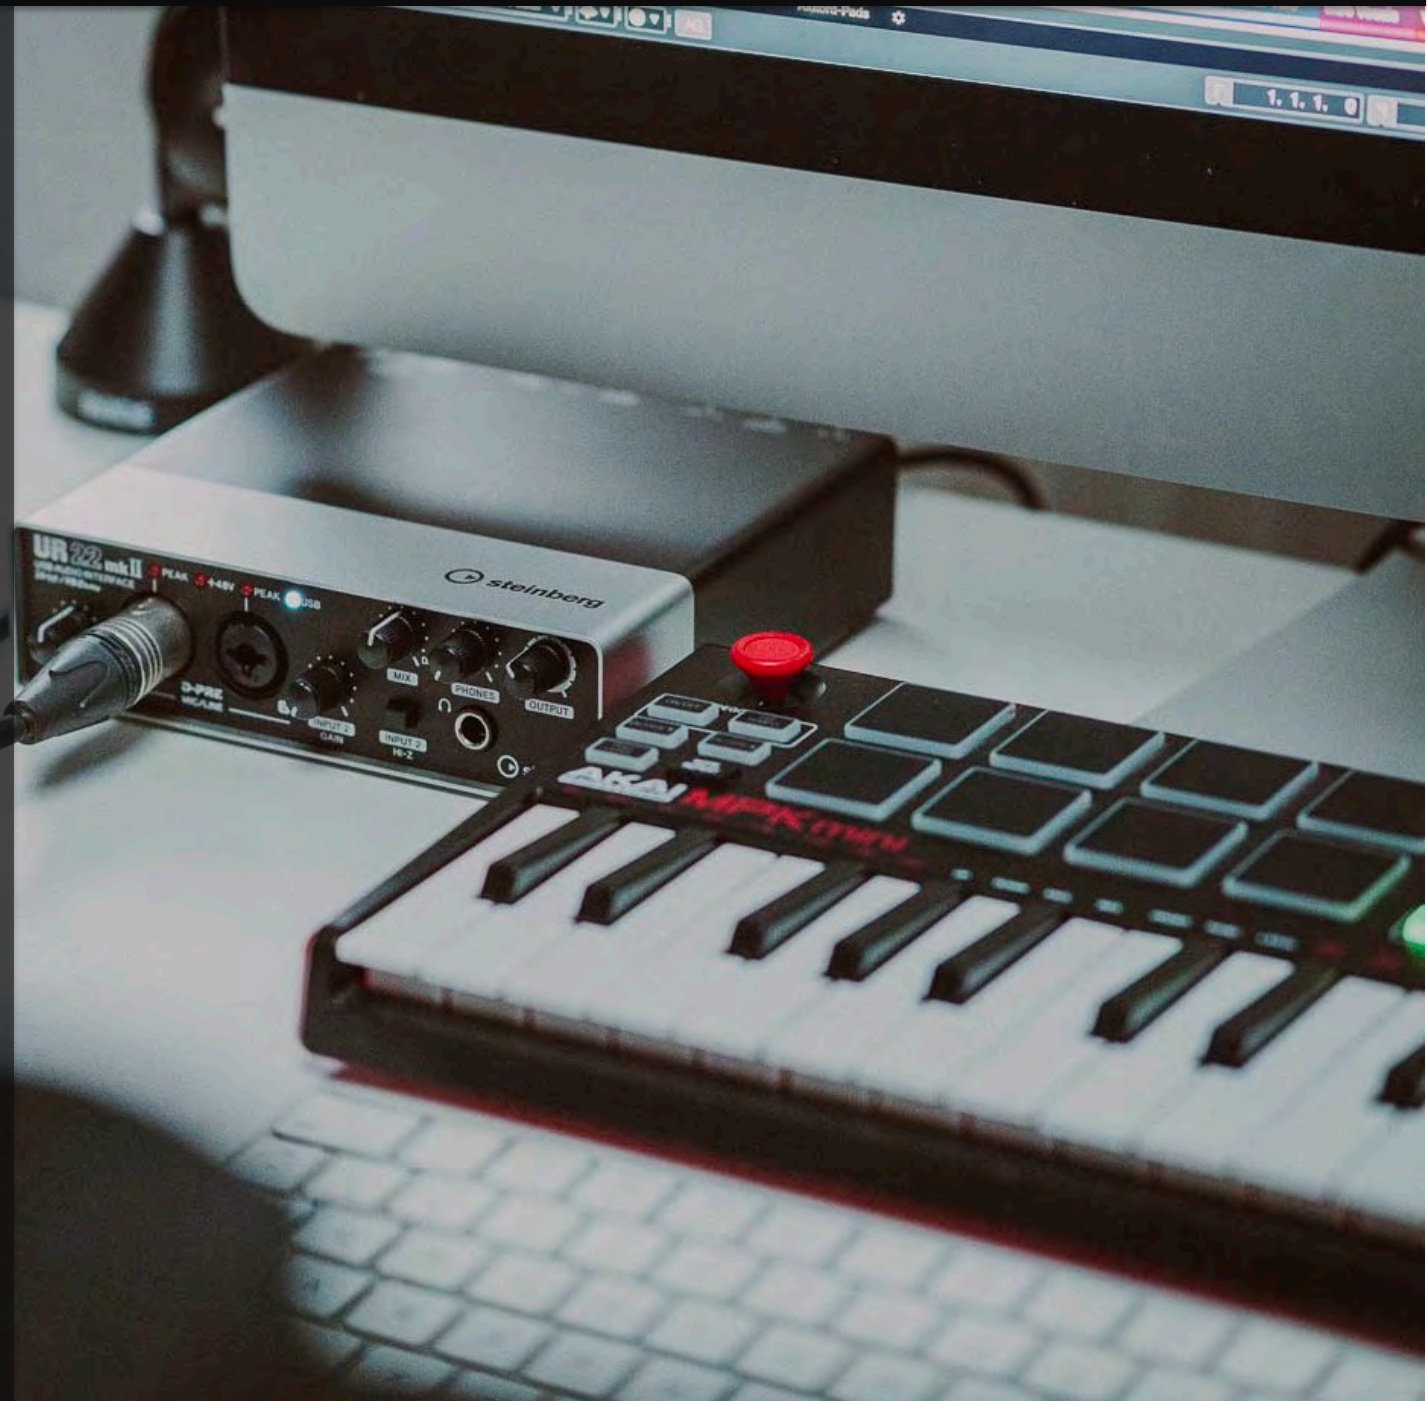

Designed for both songwriters and beat producers, Groove Agent 5 includes the very best of electronic and acoustic drums. One of the most detailed acoustic drum kits ever featured in Groove Agent sits alongside a wide variety of percussion, modern electronic drums and MIDI grooves, delivering an inspirational rhythmic composition tool for producers in every genre, from jazz, funk and rock to Trap and EDM. Support for VST, AU and AAX plug-in formats means Groove Agent 5 can be used with virtually any DAW.

 **GROOVE AGENT₅**

UR22mkII

2 x 2 USB Audio Interface with 2 x D-PRE and 192 kHz support

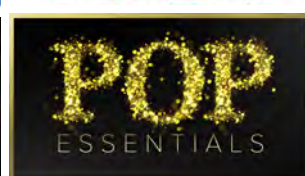

The Steinberg UR22mkII is a 2-in/2-out USB 2.0 audio interface featuring two world-renowned D-PRE microphone preamps to capture all the subtleties and expressiveness of any audio source. Record and compose music in studio quality on your laptop, iPad or even iPhone with the UR22mkII. With outstanding audio and build quality for its price class, the UR22mkII combines choice components with advanced connectivity and flexible I/O options to offer a full-on mobile production platform.

Cubasis LE

Mobile Music Production Application

Cubasis LE is the compact version of Steinberg's streamlined sequencer for the iPad, providing the same look and feel of its bigger brother Cubasis. Specially designed for quick and easy operation, Cubasis LE makes recording, editing and mixing a breeze and opens a new world of possibilities for your creativity.
